

Job Description

Associate Civil & Structural Engineer

Position Title: Associate Civil & Structural Engineer

Company: Founded in 2006, Dennany Reidy Associates are a firm of Consulting Civil & Structural Engineers with offices in Limerick & Dublin. We provide consulting civil & structural engineering services to both private & public sector clients with an emphasis on economical design, sustainability and a client focused approach. Our projects portfolio includes residential, commercial, educational and infrastructural & civil engineering works.

Position Location: Dublin

Reporting to: Company Directors

Job Specification:

Dennany Reidy Associates are seeking an Associate Civil & Structural Engineer to manage and grow our Dublin Office. This is an opportunity for an ambitious engineer to take on a senior role within a growing firm of consulting engineers. The role will involve the following:

- Managing civil & structural engineering projects with responsibility for quality, budget and project delivery.
- Business development and management of office resources, including building a team of engineers & technicians to meet client / project requirements.
- Preparing and co-ordinating civil & structural engineering design works and all associated project documents including drawings & specifications.
- Property inspections and preparation of detailed engineering reports.
- Effective communication with clients, design team members and office staff.
- Developing and maintaining client relationships.
- Keep up to date with industry developments, innovations and the technology utilised by consulting engineering professionals.

The Successful Candidate - Requirements:

The successful candidate must meet the following requirements in terms of skills and attributes:

- Be a Chartered Engineer (IEI or IStructE) with an honours degree in civil or structural engineering.
- A minimum of 10 years post graduate experience in civil & structural engineering.
- Proven track record in managing projects and project staff to ensure the timely delivery of project deliverables within specified timeframes and within budget.
- Excellent communication and organisational skills.
- High levels of technical competence and knowledge of relevant design codes and Building Regulations.
- Professional approach to work with high integrity and confidentiality.
- Must be self-motivated and ambitious.

- High proficiency in civil & structural design software including Autocad, CADS suite of structural engineering software and SCIA Engineer or equivalent. Experience with BIM (Revit & Navisworks) also an advantage.
- Ability to motivate and mentor other staff members.
- Good business acumen and ability to develop business opportunities.

Further Information:

The role will be based in our Dublin office but will require some travel depending on project locations. Salary will be attractive and commensurate with the successful candidate's level of experience and competencies. Dennany Reidy Associates have a pension scheme and reimburse work related travel expenses on a monthly basis. Dennany Reidy Associates are an equal opportunities employer.

Applications:

To apply for this role, please email mail@dennanyreidy.ie and provide the following documentation:

- A cover letter outlining your suitability for the role;
- Your CV
