**Position Location:** Limerick

**Reporting to:** Company Directors / Senior Engineers

### **Job Specification:**

Dennany Reidy Associates are seeking a Graduate Civil & Structural Engineer to work on a variety of project types from our offices in Limerick. This is an opportunity for an ambitious engineer to take on a challenging & varied role within a growing firm of consulting engineers.

The successful candidate will be working on civil & structural engineering projects under the mentorship of a senior engineer & company directors.

The role will involve the following:

- Civil & structural engineering design works in accordance with Eurocodes and other relevant standards & Building Regulations.
- Use of design software including CADS suite of structural design packages, SCIA engineer, Autocad, Revit & Navisworks.
- Preparation of civil & structural engineering drawings using Autocad.
- Assisting Senior Engineer / Directors with administration & project management of projects.
- Construction inspections and preparation of associated reports.
- Effective communication with clients, design team members and office staff.
- Keep up to date with industry development, innovations and the technology utilised by consulting engineering professionals. CPD training provided by the company.

### **The Successful Candidate - Requirements:**

The successful candidate must meet the following requirements in terms of skills and attributes:

- An honours degree in civil or structural engineering.
- 0-3 years post graduate experience in a consulting civil & structural engineering environment.
- Be a member of Engineers Ireland (IEI) or the Institute of Structural Engineers (IStructE)
- Proficiency in Autocad drafting software.

- Excellent communication and organisational skills.
- Professional approach to work with high integrity and confidentiality.
- Excellent problem solving skills and development of design solutions
- Must be self-motivated, career focused and with ambitions to reach chartered engineer status.
- Proficiency in civil & structural design software including CADS suite of structural engineering software and SCIA Engineer is desirable.
- High proficiency in Microsoft office applications including Outlook, Word and Excel.
- Cooperative and flexible approach to work.

**Further Information:**

The role will be based in our Limerick office. Salary will be attractive and commensurate with the successful candidate's level of experience and competencies. Dennany Reidy Associates have a pension scheme and reimburse work related travel expenses on a monthly basis. Dennany Reidy Associates actively encourage all staff to further develop their careers through CPD and further education. Dennany Reidy Associates are an equal opportunities employer.
